BRITISH AGREE

Agreement

(Dy the Associated Press.) Washington, Feb. 1.—The American

debt funding commission reached a virtual agreement late today with Sir Auckland Geddes, the British ambassador, acting for his government on the program for funding Great Britain's war time debt to the United States. Only the mechanics of work ing details of the program, accepted "in principal" Yesterday by the British cabinet, remained to be disposed of tonight and official spokesmen for the American commission emphasized that disposition of those details undoubtedly would be completed at a meeting of the commission with the British ambassador temorrow,

The hope was expressed that final action would be taken and the commission's recommendations submitted American congress to "the condition to the President Saturday, so that he of servitude" imposed by the Ruhr in turn, would be ready early next nation and the Vermilles treaty, week to transmit them to congres; for and declare that "American honor the action which would convert the asserted at this time can save Europe tentative settlement into an accomplished fact and mark the first adjustment of any of the World was inter

MINOT OF THE LETTER

Washington, Fab. 1.—From the nee of the dromedary in hibital times to the swiftly flying mid place of loda; the history of the letter, as a written neans of communication between pecples, was traced by Assistant Posteries General W. Irving Glover, in a speech recently to postmasters and pontal garployes in a pontal confer-mos contribution at Transco-Salem.

"On the port office job." he said lebes, acton of one of the proudent mething can take the place of the families of Francis, who has million individual. While is a great many a few years ago and who was report industries the hundle equation has a few years ago and who was report industries the hundle equation has a few years ago at a man is the delivery of letters. Today, as a hundred years ago, we are dependent on the nerve has release from Fort Douglas, Utah and the genes of loyalty of a human where he was interned, Yon Alvans below for the nunctual delivery of our leben modelmy made his reappearance.

being for the punctual delivery of our mail regardless of the weather and everything else.

"The history of the postal service goes back as far as the sight century B. C., and may be called the handmaid of civilization and, tracing it from the dispatch bearer of the As-spring in Section. Horn in a family spring and Koman times to the air-plane service of the present day, the military casts and was an officer in plane service of the present day, the postal business has doubled in the last decade while the number of em-

tionals and the Rochester club over roll's signing with the Tigate was disc never was a time when this practice Jocks Corlon, the Harvard shortstop, closed in the reserve list through a was unknown. But the stamp itself comes the threat of a similar scrap in- clerical error and that the contract is comparatively new, while the send-

> tells of how King Anguerus, isgrains them due to Excher that Haman had ordered the death of all the Jews. hold-up men who, on a recent Sunday the scribes and spud letters to every of polo polics. I afternoon, attacked various parties of province of the kingdom forbidding. The come to

> > " And he wrote in the King Ahas-King's ring; and sent letters by posts o horseback, and riders on mules. camela and young dromedaries."

The Romans, too, sent their leter carried the message about twenty miles when he would come to a posta, where another messager was stationed with a fresh horse. He, in turn, would be reflered by still another courier. Thus relay after relay, the letter was aped on until at last it arrived at its destined 'pusts' meaning station, or stopping place, and from that word we obtain the word

post, as found in post office, post-origing any many simil. Words.
"In the times of Benjamin Frank-lin, each letter was charged for by the sheet intend of by weight, and also for the distance it was carried. en cents was charged for one abset. canta for two master and so on, no for every fifty miles another full so was added. Buyelopes were not sed in those days, the letter simply eing folded up and sealed. "And now we come to the stagger-

of Scures showing the growth of one of the 24 there are mailed 1,-88,868 letters and in every day of the 85 of the year, \$2,868,866 letters slip at the box. To carry this great olums of letters, there was sold fourteen billion postage stamps, 57 million special delivery stamps, 38 million newspaper wrappers, 63 million post 3\$ million due stamps used on short paid mail matter and a billion postal cards and China, imported into other counprinted and sold, and, all counted, we need it billion units during the last Ascal year. And, again, to carry this rest quantity of mail we operate a fers large motor ""c' service having a operation today 4.438 motor vehioles, and then in the carrying of this ness we gather thorns for flowers,—values of mail by religiond it requires. Gerald Massey. \$15,000 miles daily.

DOLLERIS A FERTILE FIELD. Am Training Fields for Major League Blackell Players.

Coilege besoball is proving a fertile field for major league club owners.

The recent signing of "Jocko" Conion, start shoristop of Harvard, by the Boston Braves, has again attracted attention to the colleges as a training field for major league players.

A perusal of the major league rquads shows that from 6 to 12 collegians are in every one of the 16 teams comprising the major league

Connie Mack, who originated the college idea in major league bastball, at one time had the field all to himself, as most major league managers didn't care to nurse the collegians along. New it's different.

It is a peculiar fact that John Mc-Graw, who once shunned the college ball player, now leads in employing Twelve players in the Giants' sound

LEAGUE CIVES ITS VERS

Saleymen's Langue Co-speculive As-sociation Expresses its Opinion Re-garding Victory Won Recordy in Pueling Constant Validity Counse. The Dairymen's League Co-Operative Association, Inc., has given out the following as their opinion concerning the victory wen recently in the matter of the validity of the posting

"The action brought by the Dairymen's League Co-Operative Ameria-George Holmes and sin Chenange county, for violation of their popular consect and which was tilbefore Judge Louis Martin in the suprome court here recently, resulted in jury verdict in favor of the Ca-Operative asseciation.

sion rendered in favor of the league within the last three weeks, the first one being the Barns case decision which was hended down by Referes Merwin in the supreme court of Utica on Jan. 17. The Heimes case catallishes the fact that the pooling con-tracts affered by the Co-Operative asand bindisk and are enforceable. It is the first decision that has been made on this much discussed point and will be a source of great satisfaction to the vast army of dairymen who are working out their milk problems through an organization which has for its basis this very contract in

"Action was brought by the league against Holmes Brothers in July to recover damages for violation of contract. It grow out of the fact that Holmes Brothers bad transferred their farm to their sister, which the league evading the terms of the popling con-

"The association was represented in the case by Hon. John D. Miller and Soward A. Miller of the logal department, assisted by Hon, P. C. J. DeAn-Holmes Brothers were reprecented by Willard R. Pratt and Fred-"The defendants claimed that they

had never really signed the contract; that the association had not delivered their certificate of indebteducts; that ciation was a monopoly in restraint of trade; that the provisions the coal office of D. Whipple and of the contract regarding damages Son. were illeral: that the league was conducting a business and making deductions in New York state on account of plants located in Pennsylvania, New Jersey and elsewhere; that the tract was obtained by duress; that the ssociation had improperly deducted considerable sums of money more than authorized by the statute ander which it was doing business, because "During the trial the defense waived

the question of mosopoly in restraint of trade. The evidence brought out the fact that the contract had not been signed by the defendants, but that they had authorized a Mr. Gurn-ney to sign it for them, and that their m, had been operated under it for mearly a year and that they had been furnished with a copy of the contract and were familiar with its

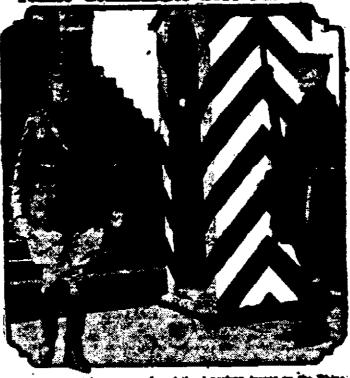

"The court held against the defendcircles, for fear of wearing out my tract which they had authorized Mr.!

> his mitk. The Holmes case estab-lishes the fact that the individual nooling contract is a legal one and is enforceable,"-| [Utica Observer - Dis-

From time to time The Star has the work of the joint Building and Long association, and to emphasius the growth and prosperity of that institution. This matter is again very pany which will result in the far-lengthing of 1,000 men on the system that on Thursday of this work the will have little effect on Omesata, it will have little effect on Omeonia. It recreates matured me tilly-fourth water is of course included in the is believed from quatements of local series of stock, amounting to \$75,600, water is of course included in the relieved of the local series of this amount woman re-

stood, and the cut in effice forces will remarkable when it is considered that affect not more than ton persons in \$22,436 of the entire sum of \$75,500 and 23 cloudy days. The depth of the local dividional effices. The print will be made among station words, any person maturing ten shares of any or two it will be much stood way on players and signal maintainers.

It is understood that a few station of a total of \$1,330, received not only sumpleyes at various points on the distance of will be much stood a total of \$1,330, received not only this sum but \$620 additional in the form of dividends. Surely, there could not only this sum but \$620 additional in the Binghamston, were furloughed yester.

At the same time the association signal maintainers were laid off north announces that during the thirty-one days of January, during which sub-scriptions for the fifty-seventh series When this series is matured it will

have a repayment value of \$309,500. Not only is this the largest series reman, conductor and trainman to ever issued in the history of the assorest throughout the country has been notable. It is evidence, morcover of an indisputable fact—that the town as a whole has men no diminuation in

NEW ONEONTA ARCHITECT

hamson, Leases Suite of Offices in Lanc Bridling and Will Open Them Albust February 15.

G. Edmund Tupper, architect, restationed in Albany has made the fol-lowing statement in regard to the cut, removed to this city and secured living apartments at 5 Walting avenue has leased a suite of offices in the Lane building at 246 Main street and for the gractice of his profession. Mr. Tupper is a native of Binghamton and has been practicing his profession there since 1912 with the exception of the war period, when he was engaged in supervising government construction work.

At the opening of the war he engaged with the George A. Fuller Constructing company and supervised the buildings at Quantico, Va., and later be was with the Austingcompany of Cleveland. Ohio, and for them he sup-

ous buildings at Indian Head, Md. Since the close of the war he has tice of his profession in Binghamton and he comes to this city well recommended not only as a capable architect, but as a young man of worth and standing.

Mr. Tupper is now engeged in preparing plans for a new High school building in Cairo in the Catakills. This The meeting of the Woman's ForRailroad officials of not counterly to the First the present reduction in supposes as is to be a building 90x120 feet.
